It is the most probable price expressed in terms of money, that a property will bring if exposed for sale in the open market or in an arm's-length transaction between a willing seller and a willing buyer, both of whom are knowledgeable concerning all the uses to which the real property is adapted and for which it is capable of being used. Actual value may be determined using professionally-accepted mass appraisal methods, including, but not limited to, the: (1) sales comparison approach; (2) income approach; and (3) cost approach.

002.02 Assessment means listing the description of all real and personal property, determining its taxability, determining its taxable value, and placing it on the assessment roll.

002.05B For all other real property, class or subclass includes, but is not limited to, improvement status; parcel type; zoning; location; city size; parcel size; geographic characteristics; or market characteristics that are appropriate for the valuation of a class or subclass of real property. 003.02D On or before June 1, the county assessor must publish in a newspaper of general circulation that the assessment roll is complete, the notices of valuation changes have been mailed, and the final date for filing a protest.

003.02I(2) The county assessor must present the plan of assessment to the county board of equalization on or before July 31 of each year. The county assessor may amend the plan as a result of county board actions in the adopted budget affecting the county assessor's office. A copy of the plan and any amendments to the plan will be mailed to the Department of Revenue, Property Assessment Division on or before October 31 each year.

003.02J When the date for filing or submitting any form, report, tax valuation notice, valuation data, adjustments to value, published notices, or any other requirement under REG 10-003.02, falls on a Saturday, Sunday, or legal holiday, the items will be considered timely filed if performed in person or postmarked on the next business day. When any document is sent by regular, certified, or registered mail, the postmarked certification or registered date will be used to determine the date filed.

003.03 Protests to the County Board of Equalization.

003.03A All protests of valuation for real property must be in writing, signed, and filed with the county clerk on or before June 30. If June 30 falls on a Saturday, Sunday, or legal holiday, the protest will be considered timely filed if performed in person or postmarked on the next business day. 003.03B(1) The protest may be prepared on the Property Valuation Protest, Form 422 or Form 422A. Failure to use Form 422 or Form 422A will not affect the filing or cause it to be dismissed. Neither the Form 422 nor Form 422A is required to be promulgated by the Nebraska Department of Revenue.

003.04 County Board of Equalization Powers and Duties.

003.04A The county board of equalization must fairly and impartially equalize the valuation of all real property in the county, so that all real property is assessed uniformly and proportionately.

003.04C After July 25, or after August 10 if the county board of equalization has adopted a resolution to extend the deadline for hearing protests, the county board of equalization cannot change the valuation of any real property for the current year unless there was a clerical error or the real property was omitted and not properly reported to the county assessor pursuant to Neb. Rev. Stat. § 77-1318.01.

003.04C(1) The county clerk must mail to the protester on or before August 2, or on or before August 18 in a county that has adopted a resolution extending the deadline for hearing protests, a written notice of the county board of equalization's decision regarding the protest. The notice must state that a report of the decision is available at either the county clerk's or county assessor's office, whichever is appropriate. Nothing in this regulation prohibits a county from providing a copy of the report of the county board of equalization's decision to the protester along with the written notice of the decision.

003.04C(2) If July 25 or August 10 falls on a Saturday, Sunday or legal holiday, the county board of equalization must hear and decide protests on the previous business day.

003.04C(3) The county clerk or county assessor will prepare a report for each protest filed. The report should contain a signed statement by the chairperson of the county board of equalization stating the board's decision and basis for the decision, a description of the real property affected, the recommendation of the county assessor, the recommendation of a referee if applicable, the date the county board of equalization heard the protest, the date of the decision, and the date notice of the decision was mailed to the protester. Attached to the report should also be a copy of the property record file that substantiates the assessed value, unless the county assessor certifies to the county board of equalization that a copy of the file is maintained in either paper or electronic form in the county assessor's office.

003.04C(3)(a) One copy of the report, if prepared by the county clerk, must be given to the county assessor on or before August 2. The county assessor cannot make a

003.04D The county board of equalization may petition the Tax Equalization and Review Commission for a class or subclass adjustments on or before July 26. Any county that has adopted a resolution extending the deadline for hearing protests waives any right to petition the Tax Equalization and Review Commission for adjustment of a class or subclass of real property for that year. For properties that have already received an adjustment from the county board of equalization, an additional adjustment may be made so that the total adjustments are equal to the Tax Equalization Review Commission's ordered adjustment.

003.05 Beginning on July 26 and on or before August 24, or on or before September 10 if the county has adopted a resolution to extend the deadline for hearing protests, any action of the county board of equalization taken pursuant to Neb. Rev. Stat. §§ 77-1502 or 77-1504 may be appealed to the Tax Equalization and Review Commission pursuant to § 77-5013. An appeal will be considered timely filed if postmarked by August 24, or September 10 if the county has adopted a resolution to extend the deadline for hearing protests.

REG-10-004 MANUALS

004.01 Every county assessor will use all manuals issued by the Property Tax Administrator and the Tax Commissioner as a basis for the performance of his or her duties. Classifications or assessment methods included in any manual will be used as a basis for the assessment of all real property uniformly throughout each county. Unless otherwise provided by law, no deviation from the classifications or assessment methods is allowed, unless the deviation is necessary for compliance with the laws of the state or regulations promulgated by the Property Tax Administrator and the Tax Commissioner. Thorough documentation of each deviation, clearly stating the reasons for the deviation, must be included in the property record file of the parcel in question.

004.02 The county assessor must use the Nebraska Assessor's Reference Manual, as issued and updated by the Department of Revenue, Property Assessment Division or Property Tax Administrator and the Tax Commissioner, in the performance of his or her duties.

004.03 The Marshall Valuation Service, including associated handbooks, as published and updated by Marshall and Swift Publishing Company, must be used for uniform identification of the physical characteristics of real property. If a county assessor wishes to utilize an alternative characteristics system, the county assessor must make this request in writing to the Property Tax Administrator. If the Property Tax Administrator is satisfied that the alternative method provides a characteristics system that reasonably corresponds with the Marshall and Swift Valuation Service to assure consistency with other counties, he or she will grant approval in writing to the county assessor.

004.04 If the Property Tax Administrator has reason to believe that any county assessor has failed to properly implement any manual as required by law, a hearing will be held pursuant to the Administrative Procedures

Act of the Nebraska statutes. See, Practice and Procedures Regulations, Chapter 90, and Proceedings Instituted by the Department of Revenue, Chapter 91.

Neb. Rev. Stat. §§ 77-702, 77-1311, 77-1330, 77-1363, and 77-1374. October 26, 2014.

REG-10-005 RECORD KEEPING

005.01 Every county assessor must prepare and maintain a property record file which includes a property record card for each parcel in the county, including improvements on leased land. The property record file and property record card must be updated annually by the county assessor to reflect any changes made to the assessment information for the property.

005.01A Each property record card must contain the following items.

005.01A(1) The legal description, which must be prepared using one of the following methods: government survey; lot number of a recorded plat; metes and bounds; or tax lot number. The legal description on the record card must be sufficiently complete so that the parcel can be located and identified. If a metes and bounds description is used, it must begin at a known point that can be readily identified and the description must close. If there are more than 160 characters in the legal description, a tax lot number system must be developed. If the county does not have a tax lot number system, pursuant to Neb. Rev. Stat. §§ 23-304 through 23-307, the county assessor will keep a copy of the complete legal description in the record file or in a reference book in his or her office.

005.01A(2) The book and page number of the last deed of record during the past five years and any changes of record ownership including an area for noting splits or additions to the original parcel during the past five years.

005.01A(3) The current record owner's name and mailing address.

005.01A(4) The address of the parcel if it is different from the owner's mailing address.

005.01A(5) The cadastral map book and page numbers, or GIS reference number.

005.01A(6) The current property classification code pursuant to REG-10-005.02.

005.01A(7) The tax district code as determined by the county, and

005.01A(8) The current year and one or more prior years' history of the final assessed value of the land and improvements, except for real property that receives a property tax exemption.

005.01B Each property record file must contain the following (if applicable):

005.01B(1) A picture of the improvements or main buildings;

005.01B(2) A sketch of the improvements or main buildings;

005.01B(3) A ground plan sketch or aerial photograph if there are multiple improvements in addition to the main structures

005.01B(4) The school district codes as prescribed by the Nebraska Department of Revenue, Property Assessment Division;

005.01B(5) Four or more prior years' history of the final assessed value of land and improvements. Further, a complete history of each incremental adjustment or change made within an assessment year to the assessed value of the parcel must be recorded in the file, including the nature of the change and an indication of the assessment body or official ordering the change;

005.01B(6) Other codes created by the county assessor that are relevant to the specific parcel, such as coded expressions for the legal description, account numbers, or other identifiers; and

005.01B(7) The property record file must contain a correlation section that summarizes the results of each approach to value that has been completed for the parcel. There must also be a narrative statement that provides an explanation of the correlation process and the final estimate of value.

005.02 All real property must be identified by a property classification code on the property record card. The classification code is vital for the stratification of real property into classes or subclasses. The classification number must be derived from the following numerical coding system:

005.03 All land in the state may be identified using the public land survey system. The entire state has been laid out in townships North of the baseline running from east to west along the Kansas-Nebraska border, and ranges East and West from the 6th parallel which runs perpendicular to the baseline approximately 108 miles West of the Eastern tip of the state. The parcel should be identified using the public land survey system legal description.

005.03A Government lots may be identified using the appropriately assigned government lot number. Some government lots are irregularly shaped lots which most often occur along the North and West sections in a township.

005.03B Irregular lots may be identified using the appropriately assigned “tax lot” number.

005.04 Every county assessor must prepare and annually maintain a cadastral map system. It must consist of a series of layers, sheets, or books accurately showing each parcel to scale. Any of the following items that are pertinent must be shown on each sheet.

005.04E Ownership and use of public property (courthouse, library, school, park, etc.)

005.04F Creeks, rivers, ditches, bridges, lakes, etc.

005.04G In the preparation of a cadastral map, the following scale of measurement must be used as applicable:

| | |
|--------------------------|-----------------------------|
| Urban lot | Scale - 1 inch = 100 feet |
| Large urban and suburban | Scale - 1 inch = 200 feet |

A cadastral map must be printed on permanent materials that facilitate reproduction. Each sheet or page of a cadastral map must be uniform in size. The county assessor must update and maintain the cadastral map to reflect any changes in the information. REG-10-006 IMPROVEMENTS ON LEASED LAND

006.01 Improvements on leased land or leased public land are real property and must be assessed in the same manner as other real property. The taxes on improvements on leased land must be collected in the same manner as the collection of taxes on other real property.

006.02 Improvements on leased public land must be assessed, together with the value of the lease, to the owner of the improvements as real property. The situs of improvements on leased land must be the same as the land upon which the improvement is located. The Improvements on Leased Public Land Assessment Application, Form 402P, must be filed stating that the specifically described improvements on the leased public land are the property of the lessee. This form must be filed with the county assessor of the county where the land is located on or before March 1 and must be signed by the owner of the improvements. A new Form 402P must be filed following any change in the improvements or ownership.

006.03 Improvements on leased land, other than leased public land, must be assessed to the owner of the leased land unless Form 402, is filed stating that specifically described improvements on the leased land are the property of the lessee. This form must be filed with the county assessor of the county where the land is located by

either the owner of the land or the owner of the improvements before March 1. A new Form 402 must be filed and signed by the owner of the improvements following any change in the improvements or ownership.

006.04 When improvements are placed on leased land, and are listed separately to the owner of the improvements, the actual value of the land and improvements must be determined without regard to the fact that the owner of the improvements is not the owner of the land.

006.05 If either the owner of the improvement or the owner of the land claims that the value of his or her interest in the real property is reduced because of the terms of the contract or because of the prospective termination or expiration of the term, he or she must serve notice of this claim in writing by mail on the owner of the land or the owner of the improvement and on the county assessor, together with an affidavit that notice was served on the other party before January 1. If the claim is determined to be valid, the county assessor must apportion the total value of the improvements between the owner of the improvements and the owner of the land. The county assessor must give notice to the parties of the findings by mail on or before June 1.
