Introduction

This 2012 Tax Expenditure Report and Summary is published by the Nebraska Department of Revenue (Department), pursuant to the Tax Expenditure Reporting Act, Neb. Rev. Stat. §§ [77-379 through 77-385](#). This report provides a review of tax and fee (tax) expenditures, which is required in even numbered years to enable the Legislature to better determine those sectors of the economy which are receiving indirect subsidies as a result of tax expenditures.

A “tax expenditure” is defined as a revenue reduction that occurs in the tax base of the state or a political subdivision as a result of an exemption, deduction, exclusion, tax deferral, credit, or preferential rate introduced into the tax structure. See Neb. Rev. Stat. § [77-381\(1\)](#). The tax expenditures included in this report are those in effect on July 1, 2012. All tax programs which generate state or local revenue annually in excess of \$2 million are included in the report.

This report is submitted to the Governor, the Executive Board of the Legislative Council, and the chairpersons of the Legislature’s Revenue and Appropriations Committees. This report is also available on the Department’s website at www.revenue.ne.gov.

A sincere thank you is extended to the following state agencies for their cooperation and contribution to this report: the Secretary of State; the Liquor Control Commission; the Department of Insurance; and the Department of Motor Vehicles.

Nebraska Tax Expenditure Reporting Requirements

Neb. Rev. Stat. § 77-379 provides:

Sections 77-379 to 77-385 shall be known and may be cited as the Tax Expenditure Reporting Act.

Neb. Rev. Stat. § 77-380 provides:

It is the intent of sections 77-202.03 and 77-380 to 77-385 to provide a mechanism which will enable the Legislature to better determine those sectors of the economy which are receiving indirect subsidies as a result of tax expenditures. The Legislature recognizes that the present budgeting system fails to accurately and totally reflect the revenue lost due to such tax expenditures and that as a result undetermined amounts of potential revenue are escaping public or legislative scrutiny. The loss of such potential revenue causes a narrowing of the tax base which in turn forces higher tax rates on the remaining tax base.

Neb. Rev. Stat. § 77-381 provides:

For purposes of the Tax Expenditure Reporting Act, unless the context otherwise requires:

- (1) Tax expenditure shall mean a revenue reduction that occurs in the tax base of the state or a political subdivision as the result of an exemption, deduction, exclusion, tax deferral, credit, or preferential rate introduced into the tax structure;
- (2) Department shall mean the Department of Revenue;
- (3) Income tax shall mean the tax imposed upon individuals and corporations under the Nebraska Revenue Act of 1967;
- (4) Sales tax shall mean the tax imposed upon expenditures under the Nebraska Revenue Act of 1967;
- (5) Property tax shall mean the tax imposed upon real and personal property under Chapter 77; and
- (6) Miscellaneous tax shall mean revenue sources other than income, sales, and property taxes for state and local government including, but not limited to, motor fuel taxes, liquor taxes, cigarette taxes, inheritance and estate taxes, generation-skipping transfer taxes, insurance premium taxes, and occupation taxes and fees or other taxes which generate state or local revenue annually in excess of two million dollars.

Neb. Rev. Stat. § 77-382 provides:

(1) The department shall prepare a tax expenditure report describing (a) the basic provisions of the Nebraska tax laws, (b) the actual or estimated revenue loss caused by the exemptions, deductions, exclusions, deferrals, credits, and preferential rates in effect on July 1 of each year and allowed under Nebraska's tax structure and in the property tax, and (c) the elements which make up the tax base for state and local income, including income, sales and use, property, and miscellaneous taxes.

(2) The department shall review the major tax exemptions for which state general funds are used to reduce the impact of revenue lost due to a tax expenditure. The report shall indicate an estimate of the amount of the reduction in revenue resulting from the operation of all tax expenditures. The report shall list each tax expenditure relating to sales and use tax under the following categories:

- (c) Common carrier and logistics, which shall include a separate listing for the following items: Railroad rolling stock and repair parts and services; common or contract carriers and repair parts and services; common or contract carrier accessories; and common or contract carrier safety equipment;

 - (4) It is the intent of the Legislature that nothing in the Tax Expenditure Reporting Act shall cause the valuation or assessment of any property exempt from taxation on the basis of its use exclusively for religious, educational, or charitable purposes.

Neb. Rev. Stat. § 77-383 provides:

The department may request from any state or local official or agency any information necessary to complete the report required under section 77-382. All state and local officials or agencies shall cooperate with the department with respect to any such request.

Neb. Rev. Stat. § 77-385 provides:

The report required under section 77-382 and a summary of the report shall be submitted to the Governor, the Executive Board of the Legislative Council, and the chairpersons of the Legislature's Revenue and Appropriations Committees on or before October 15, 1991, and October 15 of every even-numbered year thereafter. SECTION A — Nebraska and Local Sales and Use Taxes

Changes Since Prior Reports

The Nebraska Legislature passed LB 962 in the 2012 session, which requires the Nebraska Department of Revenue (Department) to group the sales tax expenditures by category as they are seen in this report. The legislation also requires the grouping of new exemptions, which are shown in a new category at the end of the report.

New to this report are the dates when each exemption was enacted. Some exemptions have been amended over the years, and these dates are also included.

BASIC PROVISIONS AND TAX BASE

Sales Tax¹

Nebraska sales tax is imposed upon the gross receipts from:

- all sales, leases, rentals, installation, application, and repair of tangible personal property;
- every person providing or installing utility services;
- retailers of intellectual or entertainment property;
- the sale of admissions, bundled transactions, or specified digital products;
- renting or furnishing accommodations or lodging for periods of less than 30 days; and
- the sale or providing of certain services.

The state sales tax rate is 5.5%.

Property is defined as all tangible and sales of (taxable) intangible property (including rights, licenses, franchises,) and any services that are subject to tax.

Use Tax¹

Use tax is a complement to the sales tax and is imposed upon the storage, use, distribution, or other consumption of all tangible personal property, and taxable sales of intangible property, services, bundled transactions, or specified digital products purchased at retail when the sales tax has not been paid.

Local Sales and Use Taxes

Any Nebraska county or incorporated municipality (city) may impose a local sales and use tax upon approval by a majority of their voters in a regular election. The local tax applies to the identical transactions subject to the state sales and use tax, with the exception of direct-to-home satellite programming, which is exempt from local, but not state sales taxes under federal law. Local sales taxes of 0.5%, 1.0%, 1.5%, 1.75%, and 2.0% may be approved by city or county voters. The tax is collected and remitted to the state and is then remitted to the cities and counties after deducting refunds plus a 3% administrative fee. The 3% fee from cities is deposited in the Municipal Equalization Fund; the 3% fee from counties is deposited in the State General Fund.

Sources are listed for most estimates provided in Section A. Generally, sources include Department sales tax records, data from other State of Nebraska agencies, federal government sources such as the U.S. Census Bureau, and nonprofit organizations and trade groups. Some estimates are based on confidential Department data for which a data source is not provided. In some cases, no reliable data exist from which to provide an estimate, which are listed as “not available.”

¹The taxes collected are deposited into two funds: the State General Fund; and the Highway Trust Fund. Deposits to the Highway Trust Fund are made from the sales and use taxes derived from registration of motor vehicles, trailers, and semi-trailers in Nebraska. The balance of taxes collected is deposited into the State General Fund.

RECOMMENDATIONS

The Nebraska Department of Revenue has no recommendations.

SECTION B — Income Tax: Individual, Fiduciary, Corporation, and Financial Institution Tax

BASIC PROVISIONS AND TAX BASE

Individual Income Tax¹

Nebraska individual income tax is imposed for each taxable year on the entire income of every resident individual. Nonresident and partial-year resident individuals are taxed on income derived from Nebraska sources. For tax year 2012, the rates are 2.56%, 3.57%, 5.12%, and 6.84% of Nebraska taxable income. Brackets for each filing status are outlined in Neb. Rev. Stat. § [77-2715.02](#). A personal exemption credit is allowed against the tax computed for every federal personal exemption of the taxpayer. For tax year 2012, the credit is \$123.

The tax is calculated as a percentage of Nebraska taxable income. Additional taxes are computed on alternative minimum tax and premature and lump-sum distributions from qualified retirement plans at a rate equal to 29.6% of the federal tax amount. Nebraska taxable income starts with federal adjusted gross income (AGI), adds interest from non-Nebraska state and local government obligations, and subtracts U.S. government obligations and other adjustments decreasing income. Nebraska taxable income is further reduced by either federal itemized deductions less Nebraska income tax; or a standard deduction equal to the smaller of the federal standard deduction or the Nebraska standard deduction amounts specified in § [77-2716.01\(2\)\(b\)](#). Additional standard deduction amounts are allowed to elderly and blind taxpayers. For 2012, the standard deduction, including the additional standard deduction amounts, is adjusted for inflation. An additional tax which phases out the benefit of lower tax rates in the lower income brackets is also computed by higher income taxpayers.

Fiduciary Income Tax¹

Nebraska income tax is imposed for each taxable year on the federal taxable income of a resident estate or trust after the adjustments contained in § [77-2716](#). Nonresident estates and trusts have the Nebraska income tax imposed for each taxable year on the portion of their income derived from sources within Nebraska.

In both cases, the tax is calculated as a percentage of Nebraska taxable income. The rates are 2.56%, 3.57%, 5.12%, and 6.84%. The brackets are established in § [77-2715.02](#). Additional tax is imposed on alternative minimum tax and premature and lump-sum distributions from qualified retirement plans at a rate equal to 29.6% of the federal amount.

Corporation Income Tax¹

Nebraska corporation income tax is imposed upon any corporation or any other entity taxed as a corporation (not including a corporation with a valid federal subchapter S election or any financial institution defined in § [77-3801](#)) which is doing business in Nebraska. For a corporate taxpayer subject to tax in another state, the entire federal taxable income of the unitary business, after the adjustments in §§ [77-2716](#) and [77-2734.07\(1\)](#), is apportioned according to the statutory formula to determine the portion attributable to sources within Nebraska. For a corporate taxpayer not subject to tax in another state, the entire taxable income is subject to tax in Nebraska. Each corporate taxpayer is required to file a single, combined unitary tax return for each taxable year.

The corporation income tax rate is calculated as a percentage of the primary individual rate. The primary individual rate is 3.70%. The corporation rate on the first \$100,000 of taxable income is 150.8% of the primary rate and 211% of the primary rate on the excess. The 2011 and 2012 rates are 5.58% and 7.81% respectively.

Financial Institution Tax¹

Every financial institution which is chartered or qualified to do business in Nebraska, or which maintains a permanent place of business in Nebraska and actively solicits deposits from residents of Nebraska, must file a

¹The taxes collected are deposited to the State General Fund for these tax programs.

[Nebraska Financial Institution Tax Return, Form 1120NF](#). This franchise tax is based on the average deposits of the financial institution. The rate of tax on deposits is 12.3 times the limitation rate. The limitation rate is 48.8% of the maximum corporate income tax rate in effect for the taxable year. The maximum corporate income tax rate in effect for the 2012 taxable year is 7.81%. The franchise tax imposed cannot exceed the limitation amount. The limitation amount is the product of the net financial income of the financial institution multiplied by the limitation rate. Financial institutions pay a franchise tax of 47 cents per \$1,000 of average deposits, limited by the institution's net financial income multiplied by 3.81%. Each financial institution is required to file a separate franchise tax return.

The tax imposed is based on the amount of average deposits connected with the financial institution's operations in Nebraska. These deposits are deposits which are accepted at the financial institution's offices located in Nebraska, plus deposits solicited from residents in Nebraska even if accepted at an office of the financial institution outside of Nebraska.

EXEMPTIONS

<p>Nebraska utilizes the federal calculation of taxable income for corporations as a base for computing taxpayers' Nebraska liability. Federal adjusted gross income, plus and minus certain adjustments, is used to determine Nebraska taxable income for individuals. Income tax for fiduciaries is based on taxable income. Nebraska tax tables, rates, and credits are used to determine tax liability. Some deductions (Nebraska corporation income tax) and adjustments to income (Nebraska individual, fiduciary, and corporation income tax) adopted under the Internal Revenue Code and federal regulations are recognized by Nebraska due to the linkage between the two systems. Federal tax credits are not recognized unless specifically approved by the Legislature. Any federal taxable income that is exempt from state taxation pursuant to federal law is not taxed by Nebraska.</p>	<p>NA²</p>

Nebraska income tax liability after nonrefundable credits no greater than federal income tax liability before credits.

Statutory citation: [77-2715](#)

Description: A taxpayer with less than \$5,000 in adjustments increasing income will not have a Nebraska tax larger than their federal tax.

SECTION C — Property Assessment and Homestead Exemptions

BASIC PROVISIONS AND TAXATION LAWS

All property in the State of Nebraska is subject to property tax unless an exemption is mandated by the Nebraska Constitution, Article VIII, or is permitted by the Constitution and enabling legislation is adopted by the Legislature. Federal law may supersede the Nebraska Constitution with regard to taxation of property owned by the federal government or its agencies or instrumentalities. All property in the State of Nebraska, which is subject to taxation, must be valued as of January 1, 12:01 a.m., of each year.

The county assessor is responsible for valuing all real and personal property with the exception of railroads, public service entities, and specific personal property of air carrier and rail car line companies, which are assessed by the Property Tax Administrator. The valuation of real property is determined according to professionally accepted mass appraisal techniques, including but not limited to the following: (1) sales comparison approach; (2) income approach; and (3) cost approach. The valuation of personal property is determined using a statutory method of depreciated values similar to the federal Modified Accelerated Cost Recovery System and 150% declining balance depreciation schedules.

All real property is assessed at or near 100% of actual value, except agricultural and horticultural land which is assessed at or near 75% of actual value. Agricultural and horticultural land receiving special valuation pursuant to Neb. Rev. Stat. § [77-1344](#) is assessed at or near 75% of its special value which is the uninfluenced value of the land for agricultural and horticultural purposes. Personal property is assessed at 100% of the net book taxable value as determined by the statutory method.

Permissive exemptions are allowed for certain organizations such as educational, religious, charitable, cemeteries, and agricultural societies pursuant to Neb. Rev. Stat. § [77-202](#). The organization must file an application for exemption of real and/or personal property. The county assessor will recommend approval or denial to the county board of equalization which will meet to make the final decision regarding the application for exemption.

There is an exemption for certain business personal property belonging to qualifying companies under Nebraska's tax incentive programs the Employment and Investment Growth Act and the Nebraska Advantage Act.

Personal property used directly in the generation of electricity using wind as the fuel source is exempt from personal property tax. The wind energy generation facilities pay a nameplate capacity tax in place of personal property tax and the real property is assessed locally by the county assessor.

There is an exemption for certain personal property belonging to qualified beginning farmers, pursuant to Neb. Rev. Stat. § [77-5209.02](#) of the Beginning Farmer Act.

For individuals, the homestead exemption program is designed to provide local property tax relief to qualifying elderly individuals, certain disabled veterans, and certain disabled individuals and their widowers who own and live in the home for which an exemption application is made. The exemption applies to all or part of the property taxes levied against the home, within the State of Nebraska reimbursing local governments from general fund revenues for those taxes exempted under the program (see [Homestead Exemption](#)).

Between January 1 and March 19 of each year, the county assessor updates and revises the real property assessment roll. Each year between early April and May 15, the Tax Equalization and Review Commission has the authority to adjust the valuation of classes or subclasses of real property in any county in order to achieve equalization of property values. Decisions of the Tax Equalization and Review Commission may be appealed to the Nebraska Court of Appeals.

The county assessor revises the real property assessment rolls for any orders issued by the Tax Equalization and Review Commission and notifies property owners of value increases or decreases by June 1. Individual protests

of real property valuations may be made to the county board of equalization. The county board of equalization may adjust the protested value of individual properties. Decisions of the county board of equalization may be appealed to the Tax Equalization and Review Commission.

Personal property is self-reported by the taxpayer, on or before May 1. If the county assessor makes changes to the reported valuation, a notice must be sent to the taxpayer. The action may be appealed to the county board of equalization.

On or before August 10, the Tax Equalization and Review Commission must equalize the real property of centrally-assessed railroad and public service companies with the statewide level of assessment. The Property Tax Administrator certifies centrally-assessed values to the counties.

On or before August 20, the county assessor compiles and certifies the total taxable value (real, personal, and centrally-assessed) to each local government taxing subdivision for rate setting purposes.

Each year, on or before October 15, the county board of equalization levies the necessary taxes, within the limits of the law, for operation of all functions of county government, school districts, cities, etc. The tax rates for these various local government taxing subdivisions are determined by dividing the subdivision's annual tax request by the current total taxable value within their boundaries. The tax rates are expressed as \$1 per \$100 of taxable value.

Property taxes are determined by multiplying the property's taxable value by the total consolidated tax rate for the tax district in which the property is located. The tax district is comprised of various governing bodies empowered to levy property taxes for services, such as county government, school district, city, etc.

On or before November 22, the county assessor transcribes the real property tax list and delivers it to the county treasurer for collection of property taxes. All real and personal property taxes, including taxes of centrally-assessed railroad and public service companies, are due December 31. The first half of the tax becomes delinquent on the following May 1, and the second half becomes delinquent on September 1; except in Douglas, Lancaster, and Sarpy counties, where the first half becomes delinquent on April 1 and the second half becomes delinquent on August 1.

SECTION D — Railroads, Public Service Entities, Car Lines, and Air Carrier Flight Equipment Property Tax

BASIC PROVISIONS AND TAX BASE

Property valued by the state includes those companies or industries for which the Property Tax Administrator is statutorily responsible for determining a taxable valuation each year. Companies owning or leasing operating property are required to furnish information annually, on prescribed forms, to the Property Tax Administrator. “Taxable value” is defined as actual value for real property, franchise, and net book value for tangible depreciable personal property, excluding registered motor vehicles, which is determined by using a statutory method.

Railroads

Neb. Rev. Stat. § [77-601](#), et. al., requires the Property Tax Administrator to value the operating property of any company owning, controlling, or operating property used for railroad purposes.

The Property Tax Administrator determines the total taxable value of the railroad company, including real, franchise, and net book personal property, attributable to Nebraska. The Property Tax Administrator apportions the railroad’s taxable value by taxing subdivision based on a statutory formula, as follows: (1) five percent is distributed to all taxing subdivisions where the railroad company has investment in general office buildings or machine and repair facilities; and (2) the balance is distributed to all taxing subdivisions based 50% on track mileage and 50% on traffic density. The value per mile of main track must equal twice the value per mile of side track. The apportioned value is certified by the Property Tax Administrator to the county assessor for assessment and tax collection.

Public Service Entities

Neb. Rev. Stat. § [77-801](#), et. al., requires the Property Tax Administrator to determine the total taxable value of public service entities, organized for profit under the laws of this state or any other state or government and engaged in the business of waterworks, electrical power, gas works, natural gas, telecommunications, and pipeline transmissions. Generally, the entities affected by this law fall into three groups: telecommunications; pipeline companies; and certain utility companies.

The Property Tax Administrator determines the total taxable value, including real, franchise, and net book personal property value attributable to Nebraska.

The Property Tax Administrator distributes the public service entity’s taxable value to the various taxing subdivisions based on a ratio of the public service entity’s original cost of all operating property located in the taxing subdivision compared to the original cost of all operating property located in the state. The Property Tax Administrator certifies the distributed taxable value of public service entities to the county assessor for assessment and tax collection at the local government level.

Car Line Companies

Neb. Rev. Stat. § [77-679](#), et. al., requires the assessment and taxation of car line companies. A “car line company” means any person, other than a railroad company, owning or operating any railroad cars of any description through, in, or into the State of Nebraska. The Property Tax Administrator determines the total taxable value (i.e., net book personal property value) of the car line company cars attributable to Nebraska. The Property Tax Administrator must levy against the value assessed, for property tax purposes, at a rate equal to the state’s average tax rate.

The taxes are payable to the Property Tax Administrator which are remitted, less a 3% collection fee, to the State Treasurer for distribution to the counties.

The car line taxes are distributed among the various taxing subdivisions in proportion to all railroad taxes levied pursuant to § [77-684](#).

The collection fee is remitted to the State Treasurer for credit to the Nebraska Department of Revenue Property Assessment Division Cash Fund.

Air Carrier Flight Equipment

Neb. Rev. Stat. § [77-1245](#), et. al., requires the assessment and taxation of air carriers. An “air carrier” means any person, firm, or assignee engaged in interstate carriage of persons or cargo for hire by company or corporate aircraft. The Property Tax Administrator determines the total taxable value (i.e., net book personal property value of the air carrier’s flight equipment) attributable to Nebraska. The Property Tax Administrator must levy against the value assessed, for property tax purposes, at a rate equal to the state’s average tax rate.

The taxes are payable to the Property Tax Administrator which are remitted, less a three percent collection fee, to the State Treasurer for distribution to the counties.

The air carrier taxes are distributed to the counties as a credit to the county general fund in proportion to the amount the total property taxes levied in the county bears to the total property taxes levied in the state as a whole.

The collection fee is remitted to the State Treasurer for credit to the Nebraska Department of Revenue Property Assessment Division Cash Fund.

SECTION E — Alcoholic Beverages Tax and Fees

BASIC PROVISIONS AND TAX BASE

Neb. Rev. Stat. § [53-160](#) imposes a tax upon the privilege of doing business in Nebraska as a manufacturer or distributor of alcoholic liquors. The tax is imposed at the rate of 31 cents per gallon on all beer, 95 cents per gallon for wine, \$3.75 per gallon on alcohol and spirits, and six cents per gallon for wine produced in farm wineries. Revenue raised from the gallonage tax is placed in the State General Fund.

Neb. Rev. Stat. §§ [53-124](#) and [53-131.01](#) provide for the payment of registration and annual license fees to the Nebraska Liquor Control Commission. The law provides a schedule of license fees to be paid by manufacturers, distributors, and retailers of alcoholic beverages. In addition, Neb. Rev. Stat. § [53-132](#) allows for an occupation tax to be imposed by cities and villages.

The fees paid by manufacturers and distributors vary depending upon whether beer, wine, and/or spirits are handled by the licensee. Retailer's license fees vary depending upon: what alcoholic beverages are sold; whether sold for consumption on- or off-premises; whether sold in a village or larger community; whether issued to a privately-owned recreation area; whether issued to a nonprofit corporation for on-premise consumption; whether issued to a municipal corporation, fine arts museum, or nonprofit religious or fraternal organization; whether issued to a restaurant for on-premise consumption; whether issued to a railroad, passenger boat operator, nonbeverage user, airline, or bottle club; or whether issued to a farm winery or brewpub. Nonprofit corporations can obtain a special designated permit for limited purposes.

The fees derived from local retail license fees by cities or villages are placed in the School Fund of the district lying wholly or partially within the corporate limits of the city or village. The fees raised from Special Designated Licenses are deposited into the State General Fund.

Annual license fees received by the Nebraska Liquor Control Commission are paid to the State Treasurer for deposit in the Temporary School Fund. Registration fees received by the Commission are placed in the State General Fund.

SECTION F — Bingo, Lottery, Raffle, and Lottery by Pickle Card Tax

BASIC PROVISIONS AND TAX BASE

Bingo

A nonprofit organization wishing to conduct bingo where: (1) a charge is made to participate; or (2) any prize to be awarded exceeds \$25 in value, must apply for and obtain a license from the Nebraska Department of Revenue (Department).

All licensed organizations are subject to a tax of 3% of the bingo gross receipts. Bingo gross receipts include the sale or rental of all bingo cards, any rental fees charged for the use of bingo card monitoring devices, and admission charges. The bingo tax return is filed on a quarterly basis. A licensed organization cannot hold more than ten bingo occasions per month. The sale or rental of bingo cards to the public is not subject to sales tax.

A qualifying nonprofit organization not holding a bingo license can apply for a Special Event Bingo permit. A Special Event Bingo permit allows the conduct of small-stakes bingo games by an organization at a special event where bingo is not the primary function of the event. An organization may apply for two Special Event Bingo permits per calendar year, for an aggregate total of not more than 14 days. Special Event bingo cards cannot be sold for more than 25 cents per card, and individual prizes are limited to no more than \$25 in value. Special Event Bingo is exempt from the licensing, tax, and reporting requirements imposed on licensed organizations.

All licensed organizations must purchase bingo equipment only from a licensed distributor. A licensed distributor must purchase bingo equipment only from a licensed manufacturer. Both distributors and manufacturers must obtain their licenses from the Department.

Lottery by Pickle Card

A nonprofit organization wishing to sell pickle cards must apply for and obtain a license from the Department. There are two types of licenses that authorize the sale of pickle cards. The first type of license allows pickle card sales at the nonprofit organization's location, including where it conducts bingo games. The second type of license also permits the sale of pickle cards at certain retail locations, known as pickle card operators. Any person or business holding a retail liquor license with the Nebraska Liquor Control Commission may apply to the Department to obtain a pickle card operator's license. If a licensed organization sells pickle cards at the location of a pickle card operator, it must also license at least one of its members as a sales agent. A sales agent is responsible for all marketing activity with a pickle card operator relative to selling the licensed organization's pickle cards. A licensed organization must apply for and obtain a pickle card operator authorization from the Department for each pickle card operator location selling the licensed organization's pickle cards.

All licensed organizations must purchase pickle card units only from a licensed distributor. A licensed distributor must purchase pickle card units only from a licensed manufacturer. Both distributors and manufacturers must obtain licenses from the Department.

A licensed distributor selling pickle card units to a licensed organization is subject to a tax of 10% of the definite profit of each pickle card unit sold. The "definite profit of a pickle card unit" is the gross proceeds of the unit less all possible prizes. The gross proceeds of a unit is determined by multiplying the number of pickle cards in the unit by the selling price per individual pickle card. The pickle card tax return is filed on a monthly basis. The tax paid by the licensed distributor is passed along to the licensed organization as a part of the selling price of a pickle card unit. The appropriate sales tax is also due on the sale of each pickle card unit, unless the licensed organization purchasing the unit is exempt from the payment of sales tax. The sale of individual pickle cards to the public either by a licensed organization or a licensed pickle card operator is not subject to sales tax.

If a licensed organization or pickle card operator uses a coin or currency-activated pickle card dispensing device, this device must be registered with the Department. An annual registration fee is required and each device must be affixed with a registration decal issued by the Department.

Lottery/Raffle

A nonprofit organization wishing to conduct a lottery (primarily cash prizes) with gross proceeds in excess of \$1,000, or a raffle (at least 80% of prizes are merchandise) with gross proceeds in excess of \$5,000, must first apply for and obtain a license from the Department. The permissible forms of winner determination for a lottery or raffle are limited to: (1) a random ticket drawing; or (2) a race using inanimate, buoyant objects floated along a river, canal, or other waterway (duck races). Lotteries exceeding \$1,000 in gross proceeds and raffles exceeding \$5,000 in gross proceeds are subject to a tax of 2% of the gross proceeds. The gross proceeds are based upon the selling price of the lottery or raffle ticket and include the value of any free tickets given away and any other consideration which is required to be paid by a participant in order to be eligible for the drawing. The sale of lottery or raffle tickets to the public is not subject to sales tax. The lottery/raffle tax return is filed on a quarterly basis, even if the gross proceeds for the tax period do not exceed the \$1,000/\$5,000 threshold. Upon the conclusion of the lottery or raffle, if the licensed organization's actual gross proceeds did not exceed the \$1,000/\$5,000 threshold, the licensed organization may request a refund of any tax previously paid.

County/City Lottery

Any county, city, or village that has approved a lottery in a special or regularly-scheduled election must apply for and obtain a license from the Department prior to commencing the lottery activity.

There are two forms of authorized lottery activity for a county, city, or village: (1) a traditional ticket drawing where winners are determined by a random drawing; and (2) keno. A community which has approved a lottery may conduct the lottery on its own, or contract with another person or business to conduct the lottery on its behalf. The person or business that contracts with the community is called a "lottery operator." A lottery operator must apply for and obtain a license from the Department. In addition to the licensing requirements for the community and the lottery operator, all persons who perform any work directly related to the conduct of the lottery must apply for and obtain a lottery worker license from the Department. Any location where tickets are going to be sold, other than the lottery operator's location, must also be licensed as a sales outlet location.

A tax of 2% of the gross proceeds must be remitted to the Department on a quarterly basis by the county, city, or village. The net proceeds of the lottery must be used by the county, city, or village for community betterment purposes. Lottery equipment must be purchased only from a licensed manufacturer-distributor. A manufacturer-distributor of lottery equipment must obtain a license from the Department.

Tax Allocation

Forty percent of all taxes collected and referred to in this section are credited to the Charitable Gaming Operations Fund for administration and enforcement of the charitable gaming laws by the Department's Charitable Gaming Division. The remaining 60% is transferred to the General Fund. On or before November 1 of each year, \$50,000 is transferred from the Charitable Gaming Operations Fund to the Compulsive Gamblers Assistance Fund if these funds are available. Any funds remaining in the Charitable Gaming Operations Fund after the transfer to the Compulsive Gamblers Assistance Fund, which was not used by the Charitable Gaming Division for its administrative and enforcement duties, may be transferred to the General Fund at the direction of the Legislature.

Each year, several domestic and foreign corporations request refunds for overpayment of their corporation occupation tax. As of 1984, refunds are limited to two years after payment of the tax. The statutes are silent as to the amount of money the Secretary of State can refund.

21-328. Fees; refund; procedure; appeal. Any corporation paying the fees imposed by section [21-303](#) or [21-306](#) may claim a refund if the payment of such fee was invalid for any reason. The corporation shall file a written claim and any evidence supporting the claim within two years after payment of such fee. The Secretary of State shall either approve or deny the claim within thirty days after such filing. Any approved claims shall be paid out of the General Fund. Appeal of a decision by the Secretary of State shall be in accordance with the Administrative Procedure Act.

Domestic and foreign corporations which have been dissolved by operation of law for failure to file a report and pay the tax may be reinstated. To be reinstated, corporations must: file a certificate of renewal; pay a filing fee; pay all taxes due; and pay a variable statutory percent penalty calculated to the date of renewal (Neb. Rev. Stat. § [45-104.02](#)).

A biennial fee of \$20 is levied against nonprofit corporations. The fee is collected in the odd-numbered years on a biennial basis and remitted to the State Treasurer. Two-thirds of the fee is credited to the General Fund and the remaining one-third to the Corporation Cash Fund.

SECTION I — Documentary Stamp Tax

BASIC PROVISIONS AND TAX BASE

The documentary stamp tax is a tax imposed on the grantor executing a deed for the privilege of transferring beneficial interest in or legal title to real estate. The tax rate is \$2.25 for each \$1,000 of value (or fraction thereof) of the real estate transferred. All deeds are presumed taxable unless it clearly appears on the face of the deed or sufficient documented proof is presented to the register of deeds that the instrument is exempt under Neb. Rev. Stat. § [76-902](#).

From each \$2.25 of the tax collected, the register of deeds retains \$0.50 to be placed in the county general fund, and remits the balance to the State Treasurer. The State Treasurer credits \$0.95 of this amount to the Affordable Housing Trust Fund, \$0.25 to the Homeless Shelter Assistance Trust Fund, \$0.25 to the Site and Building Development Fund, and \$0.30 to the Behavioral Health Services Fund.

For tax year 2011, there were a total of 70,521 transactions (39,649 taxable and 30,872 nontaxable). Total collections for tax year 2011 were \$14,498,936. From this total, \$3,222,260 was retained by the counties and \$11,276,676 was credited to the above-mentioned funds.

SECTION J — Inheritance Tax

BASIC PROVISIONS AND TAX BASE

The inheritance tax in Nebraska is administered by the county court of the county in which the decedent resided or in which real or personal property is located. The tax is levied as a percentage of the clear market value of the property, including proceeds of insurance upon the life of the decedent, that to the extent the benefit is recovered by the personal representation transferred by will or by the intestate laws from any person who, at the time of death, was a Nebraska resident or if a nonresident, possessed nonexempt property located within the State of Nebraska. The rate is determined by the identity of the beneficiary. Interests passing to the surviving spouse are not subject to inheritance tax.

The inheritance tax is required to be apportioned among the counties in the same ratio that the gross property (including both taxable and nontaxable property) in each county bears to the gross value of all property reportable for inheritance tax purposes.

All inheritance tax is credited to the county general fund or to any other fund of the county selected by the county board.

SECTION K — Insurance Premium Tax

BASIC PROVISIONS AND TAX BASE

Each insurance company organized as a stock, mutual, assessment, or reciprocal insurer, and every nonprofit hospital service corporation (except fraternal benefit societies) which transacts business in Nebraska is required to pay a tax to the Director of Insurance (Director), on or before March 1 of each year, in lieu of any other intangible property tax, of 1% of the gross amount of direct written premiums received by it during the preceding calendar year for business done in Nebraska; except that (1) for group sickness and accident insurance, the rate of tax is .05%; and (2) for property and casualty insurance, excluding individual sickness and accident insurance, the rate is 1%.

The taxable premiums include premiums paid on the lives of persons residing in Nebraska and premiums paid for risks located in Nebraska, whether or not the insurance was written in Nebraska. When insurance is written on a group which exceeds 500 lives, the taxable premium includes the portion of the premium paid for insurance on Nebraska residents or risks located in Nebraska. The tax also applies to premiums received by domestic companies for insurance written on individuals residing outside Nebraska, or risks located outside Nebraska if no comparable tax is paid by the direct writing domestic company to any other appropriate taxing authority.

The Director is required to transmit 50% of the taxes paid to the Insurance Tax Fund, 40% to the General Fund, and 10% to the Mutual Finance Assistance Fund promptly upon completion of an audit and examination of the tax returns submitted by the insurers, but in no event later than May 1 of each year. Commencing with the taxable year ending December 31, 2001, all premium and retaliatory taxes paid by insurers writing health insurance in Nebraska are remitted to the Comprehensive Health Insurance Pool Distributive Fund in lieu of transmitting 50% of the taxes paid to the Insurance Tax Fund, 40% to the General Fund, and 10% to the Mutual Finance Assistance Fund.

In 1998, legislation was enacted (LB1120) which required 10% of the premium taxes collected to be transferred to the Mutual Finance Assistance Fund. This fund is used to provide assistance to rural or suburban fire protection districts and mutual finance organizations which qualify under the Mutual Finance Assistance Act. For tax year 2011, \$3,367,387 was allocated to this fund which would have gone to the General Fund prior to the enactment of this legislation.

The statutes direct the State Treasurer to disburse all of the funds in the Insurance Tax Fund prior to June 1 of each year as follows:

- 10% of the total to the counties, proportionately in the proportion that the population of each county bears to the entire state, as shown by the latest U.S. census;
- 30% of the total to the Municipal Equalization Fund; and
- 60% of the total to the State Department of Education for distribution to school districts as equalization aid pursuant to the Tax Equity and Educational Opportunities Support Act. The Commissioner of Education must: (a) include the amount certified by the State Treasurer pursuant to this section with the amount appropriated to the Tax Equity and Education Opportunities Fund for distribution in the ensuing school fiscal year; (b) include the amount in state aid certified to each school district; and (c) distribute this fund as equalization aid under the provisions of the Act during the ensuing fiscal year.

An insurer whose annual tax for the preceding taxable year was \$4,000 or more must make prepayments of its annual taxes on or before April 15, June 15, and September 15, of the current taxable year. The amount of each prepayment must be at least one-fourth of either: (1) the total tax paid for the immediately preceding taxable year; or (2) 80% of the actual tax due for the current taxable year.

The Director is required to deposit 50% of the prepayments received to the Premium and Retaliatory Tax Suspense Fund and 50% to the General Fund. Commencing with the taxable year ending December 31, 2001, all prepayments paid by insurers writing health insurance in Nebraska are remitted to the Comprehensive Health Insurance Pool Distributive Fund in lieu of transmitting 50% of the taxes paid to the Premium and Retaliatory Tax Suspense Fund and 50% to the General Fund.

The Director is authorized to impose retaliatory taxes, licenses, and other fees upon insurers from other states or countries which tax Nebraska insurers at a higher level than the tax rate currently imposed in the State of Nebraska. The retaliatory taxes are transmitted and deposited in the same manner as the insurance premium tax. The licenses and fees are deposited by the State Treasurer to the Department of Insurance Cash Fund to be appropriated and expended for the supervision, control, and regulation of the business of insurance in Nebraska.

In 1993, legislation was enacted (LB 757) which created two new taxes on the gross amount of direct written workers' compensation insurance premiums received by the company. The first is a 1% tax, the proceeds of which are transmitted by the Director to the State Treasurer for credit to the Workers' Compensation Court Cash Fund. The second is the tax of .04%, which is transmitted by the Director to the State Treasurer for credit to the Workplace Safety Consultation Program Cash Fund. LB 757 provides that this second tax be imposed for workers' compensation business transacted in this state during the 1993 through 1995 calendar years only. For tax year 2011, \$3,218,927 was allocated to the Workers' Compensation Court Cash Fund which would have gone to the General Fund, Mutual Assistance Finance Fund, counties, municipalities, and school districts prior to the enactment of the legislation.

SECTION N — Motor Vehicle, Diesel, Aircraft, and Compressed Fuels Taxes

BASIC PROVISIONS AND TAX BASE

Motor Fuels Tax – Motor Vehicle Fuels and Diesel Fuels

Motor vehicle fuels and undyed diesel fuels are subject to an excise tax imposed on the motor fuels received, imported, produced, refined, manufactured, compounded, or blended in the State of Nebraska for use, distribution, sale, or delivery in Nebraska. Motor vehicle fuels include all products commonly or commercially known as gasoline, gasohol, ethanol, casing head gasoline, and natural gasoline. Products such as naphtha, methanol, benzene, and benzol, although not defined as motor vehicle fuels, are subject to tax, if placed directly into a licensed motor vehicle or blended into gasoline at a point in the distribution chain after the refinery. Diesel fuels include all combustible liquids suitable for use in diesel-powered motor vehicles including biodiesel blends. It does not include kerosene which is subject to tax if it is blended with undyed diesel fuel.

Dyed diesel fuel placed in licensed motor vehicles by governmental agencies is also subject to motor fuels tax. Governmental agencies placing dyed diesel fuel in a licensed motor vehicle must remit motor fuels use tax by filing the Nebraska Motor Fuels Use Tax Return, Form 74.

Businesses licensed as producers, suppliers, distributors, wholesalers, importers, or exporters report and remit the motor fuels tax. Retailers, while licensed, are not required to file returns. Instead, they are subject to field record reviews or audits. Liquid fuel carrier licenses and terminal operator licenses are required for businesses involved in the movement of motor vehicle fuels in the State of Nebraska. The proper license may be obtained by completing a [Nebraska Motor Fuels License Application, Form 20MF](#).

The motor fuels tax is subject to change each January 1 and July 1, and consists of a fixed portion, a variable excise tax rate, and a variable wholesale component. The fixed portion excise tax is 10.3 cents per gallon. The variable excise tax rate is set to meet appropriations. The variable wholesale component is 5% of the average wholesale price of gasoline for the previous six months. The total motor fuels tax per gallon for the first half of 2011 was 26.4 cents. For the second half of 2011, it was 26.3 cents. For the first half of 2012, it was 26.7 cents. For the second half of 2012, it is 26.2 cents.

The business producing, importing, or removing motor fuels from a Nebraska fuel pipeline terminal has the option to remit the tax or to pass the liability on to a customer who is a licensed supplier, distributor, exporter, or wholesaler. If the tax liability is passed on to the customer, the customer must remit the tax to Nebraska, and cannot subsequently sell that fuel tax-free unless a qualified exemption applies.

Qualified exemptions for motor vehicle fuels are:

- exports with sales or use in a state other than Nebraska;
- sales to the U.S. Government or its agencies, and federal corporations wholly owned by the U.S. Government;
- sales to a metropolitan transit authority;
- natural gasoline purchased by ethanol producers for use as a denaturant; or
- sales on a Nebraska Indian reservation to a Native American residing on a Nebraska Indian reservation.¹

¹Under the authority of Neb. Rev. Stat. § 66-741, agreements are in effect with the Winnebago Tribe, the Santee Sioux Tribe, and the Omaha Tribe which eliminate this exemption on their reservations. These agreements provide that the tribes will collect a tribal tax equivalent to the Nebraska motor fuels tax on all reservation retail pump sales. It further provides that the tribes and the State of Nebraska share the motor fuels tax revenue in accordance with the negotiated apportionment. These agreements extend to all products subject to the Nebraska motor fuels tax.

While natural gasoline purchased for use as a denaturant in the production of ethanol is exempted from the motor fuels tax, it is subject to an excise tax reported and remitted by licensed ethanol producers. The tax of 1.25 cents per gallon is deposited into the Agricultural Alcohol Fuel Tax Fund (AAFTF).

Qualified exemptions for diesel fuels are:

- exports with sales or use in a state other than Nebraska;
- sales to the U.S. Government or its agencies, and federal corporations wholly owned by the U.S. Government;
- sales to a metropolitan transit authority;
- sales on a Nebraska Indian reservation to a Native American residing on a Nebraska Indian reservation¹; and
- sales of 50 gallons or less for use in a temperature control unit (reefer) or power-take-off unit. The consumer of the reefer fuel must submit an approved exemption certificate to the retailer and must also pay applicable sales tax.

A refund of the motor fuels tax paid on gallons used in unlicensed equipment may be claimed by completing a [Nebraska Non-Ag Use Motor Fuels Tax Refund Claim, Form 84](#), or a [Nebraska Ag Use Motor Fuels Tax Refund Claim, Form 84AG](#). Claims may be submitted whenever the motor fuels tax claimed exceeds \$25 within a calendar year. The minimum must be met within a calendar year for each fuel type claimed.

Aircraft Fuels Tax

Aircraft fuels are subject to an excise tax imposed upon aircraft fuels purchased for and used in aircraft within the State of Nebraska. Aircraft fuels include aviation gasoline, jet fuel, or any other fuel used and consumed exclusively for the purpose of propelling aircraft. Aviation gasoline is taxed at five cents per gallon, and aviation jet fuel is taxed at three cents per gallon.

Reporting and remitting of the aircraft fuels tax is done by businesses licensed as a supplier, distributor, wholesaler, importer, or exporter. Retailers, while licensed, are not required to file reports. Instead, they are subject to field record reviews. Liquid fuel carrier licenses and terminal operator licenses are required for businesses involved in the movement of aircraft fuels in the State of Nebraska. The proper license may be obtained by completing a [Nebraska Motor Fuels License Application, Form 20MF](#).

The aircraft fuels tax is administered in the same manner as the tax on motor vehicle fuels with regard to the point of taxation and exemptions.

Compressed Fuel Tax

The Nebraska compressed fuel tax is an excise tax imposed on retail sales of compressed fuel being placed in a licensed motor vehicle, or to an end user who intends to use the fuel by placing it in a licensed motor vehicle. Compressed fuel includes compressed natural gas, liquefied petroleum gas, liquefied natural gas, and any other compressed fuel used to power a motor vehicle. Persons required to be licensed as compressed fuel retailers are those who are engaged in the business of selling or otherwise providing compressed fuel to consumers of the fuel for use in a motor vehicle. A retailer who has equipment capable of dispensing compressed fuel into a motor vehicle must also be licensed as a compressed fuel retailer. Application for the required license is completed by submitting a [Nebraska Motor Fuels License Application, Form 20MF](#).

Compressed fuel is taxed at the same rate as motor vehicle and diesel fuels. Purchases of compressed fuel to be placed in licensed motor vehicles by the U.S. Government, and purchases made on a Nebraska Indian reservation by a Native American that resides on a Nebraska Indian reservation, are exempt from the compressed fuel tax.¹

¹Under the authority of Neb. Rev. Stat. § 66-741, agreements are in effect with the Winnebago Tribe, the Santee Sioux Tribe, and the Omaha Tribe which eliminate this exemption on their reservations. These agreements provide that the tribes will collect a tribal tax equivalent to the Nebraska motor fuels tax on all reservation retail pump sales. It further provides that the tribes and the State of Nebraska share the motor fuels tax revenue in accordance with the negotiated apportionment. These agreements extend to all products subject to the Nebraska motor fuels tax.

SECTION P — Oil and Gas Severance Tax and Oil and Gas Conservation Tax

BASIC PROVISIONS AND TAX BASE

The severance tax is levied at the rate of 3% of the value of non-stripper oil and natural gas severed from the soil of Nebraska and 2% of the value of stripper oil severed from the soil of Nebraska. The tax is paid by the first purchaser if the oil or natural gas is sold in Nebraska, or by the person doing the severing if the oil or natural gas is sold outside Nebraska. The tax collected is identified either as coming from school lands or from all other lands. The entire amount is credited to the Severance Tax Fund.

The Severance Tax Administration Fund receives 1% of the gross severance tax receipts, excluding those receipts from tax derived from oil and natural gas severed from school lands. The balance of the Severance Tax Fund received from school lands is credited to the Permanent School Fund. The balance of the Severance Tax Fund received from other than school lands is allocated as follows:

- (a) The Legislature may transfer an amount to be determined by the Legislature through the appropriations process up to \$300,000 for each year to the State Energy Office Cash Fund;
- (b) The Legislature may transfer an amount to be determined by the Legislature through the appropriations process up to \$30,000 for each year to the Public Service Commission for administration of the Municipal Rate Negotiations Revolving Loan Fund; and
- (c) The remainder is credited to the Permanent School Fund.

The State Treasurer transferred \$250,000 from the Severance Tax Administration Fund to the Department of Revenue Enforcement Fund on July 1, 2012.

In addition to the severance tax, the value of oil or gas is subject to the conservation tax. The conservation tax is levied and assessed in the same manner as the severance tax. The tax is imposed on the value at the well of all oil and gas produced, saved, and sold or transported from the premises in Nebraska. The producer of the oil or gas pays the tax unless the oil or gas is sold within Nebraska. If the oil or gas is sold in Nebraska, then the first purchaser in Nebraska pays the tax.

The conservation tax rate is set by the Oil and Gas Conservation Commission. Effective April 1, 2010, the tax rate is 0.2%. Revenue from the conservation tax is deposited in the Oil and Gas Conservation Fund.

SECTION S — Waste Reduction and Recycling Incentive Act

BASIC PROVISIONS AND TAX BASE

The Nebraska Waste Reduction and Recycling Incentive Act imposes a fee of one dollar on each tire of every new motor vehicle, trailer, or semi-trailer registered in Nebraska. The fee is collected by the county treasurer at the time of registration, and is remitted to the Nebraska Department of Revenue for deposit in the Waste Reduction and Recycling Incentive Fund. This Fund is administered by the Nebraska Department of Environmental Quality.

In addition, a fee of one dollar is imposed on every new tire sold at retail for a motor vehicle, trailer, semi-trailer, or farm tractor. The fee is collected by the retailer in the same manner as sales tax and is remitted to the Department for deposit in the Waste Reduction and Recycling Incentive Fund.

The Nebraska Waste Reduction and Recycling Incentive Act imposes an annual waste reduction and recycling fee on all businesses with retail sales of tangible personal property which are subject to the tax. The fee is \$25 for each Nebraska location with retail sales of tangible personal property of \$50,000 or more.

The Tax Commissioner deducts and withholds from the fees a collection fee to reimburse the Department for the actual cost of collecting and administering the fees. The Legislature appropriates money from this collection fund for the Department to cover the actual costs of administering the program.
